

Please answer the prompts below following the formatting guidelines provided.

- Instructions:
 - Though you may have little exposure to quality and safety in the past, improvement is all about problem-solving. We would like to read how you like to approach new problems.
 - Briefly outline an unmet healthcare need that you have encountered that would benefit from a focused improvement effort.
 - Describe how you would approach the problem.
 - How would you learn more about it?
 - How would you identify a solution to test? (a simple description feasible in a local healthcare environment)
 - What challenges might you anticipate?
 - Explain to a healthcare leader why this area is worthy of investment.

Formatting Directions:

- Maximum 800 words
- Helvetica or Arial font, 12pt throughout
- Please provide references (max 15 references that can be in addition to the 800 words)
- PDF only, not larger than 16MB.
